The Changing Demographic

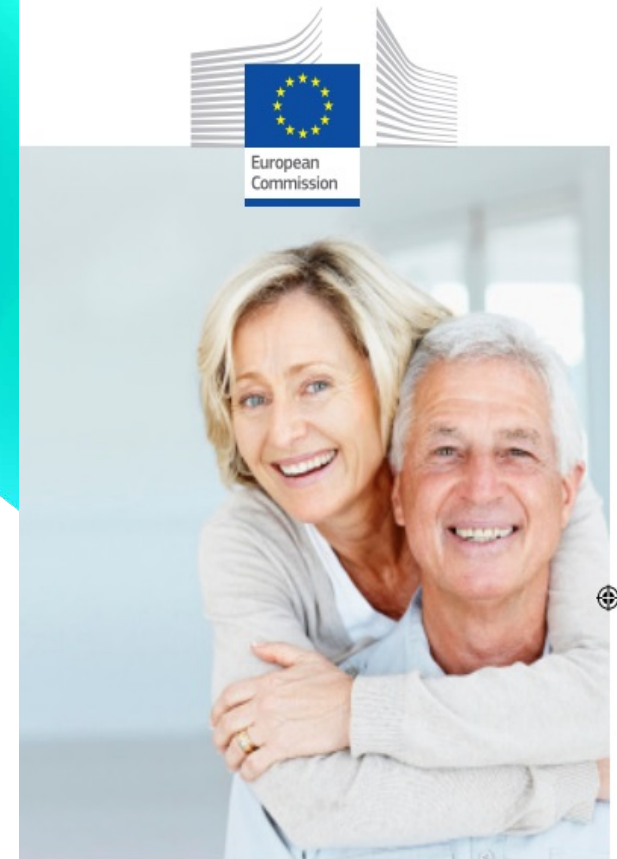

Health
Innovation
Manchester

EIP Active & Healthy Ageing

- Over 65s will double in the next 50 years
- Over 80s will almost triple
- Life expectancy continues to increase yet unhealthy life years make up around 20% of a person's life
- Aim is to increase by 2 the number of healthy life years
- Three aims
 - Prevention, screening & early diagnosis
 - Care & cure
 - Active ageing & independent living

Discovering. Developing. Delivering.

Active & Healthy Ageing
